Journey in ICS Country Manager

ICS, International Certification Services, has reached a significant milestone, celebrating its silver jubilee after years of successful and smooth operations. The organization's growth over the past two and a half decades has been remarkable. I joined ICS during a challenging period in 2006, and it has been an incredible journey since then.

The valuable contributions of each and every individual have been crucial in establishing ICS as a recognized and preferred conformity assessment body, truly Indian in spirit. We have not only consolidated our operations but also diversified by introducing numerous new services focusing on national requirements, growth, and development. During this time, we made significant efforts to digitalize our operations, enhancing transparency, efficiency, and operational effectiveness. Our new group companies—ICS Technologies, ECD, ICS Assure, and Ausadha—are a testament to this progress.

Looking ahead, we have established Suryaansh, a convention center in Palghar, Maharashtra, to cater to the growing needs of the country. Suryaansh is designed to enhance the training, qualification, and competence of personnel, primarily targeting MSME top management teams, managers, supervisors, and workers. It offers the most modern residential training and convention facilities.

ICS celebrated its silver jubilee on 27th July 2024 at Suryaansh, with participation from all ICSians across ICS and its group companies. On this special occasion, the ICS Management and Board of Directors honored each individual for their support, cooperation, and hard work in building ICS. Prestige badges were presented to ICSians who had completed 5, 10, 15, 20, and 25 years with the organization. The two-day camp at Suryaansh was a time to celebrate our success together. Special thanks to the Silver Jubilee celebration team for making the event enjoyable and memorable.

On behalf of the Board of Directors and ICS Management Team, I extend our heartfelt thanks and best wishes for continued success to you and your families in the years to come

Mr. Dilip Negi

Introduction

International Certification Services Pvt. Ltd. (ICS), a distinguished name in the certification and inspection industry, is celebrating its 25th anniversary. Over these years, ICS has evolved from a small team of dedicated professionals into a trusted and ethical leader in the field. This article reflects on our remarkable journey, highlighting key milestones and achievements that have shaped our success.

The Humble Beginnings (1999)

ICS began its journey in 1999 with a handful of dedicated individuals. On December 2, 1999, we achieved our first accreditation by JAS-ANZ for QMS ISO 9001. From 1999 to 2016, we expanded to 27 branches across India and established offices or representatives in 12 overseas countries. Our first client, Hydrocarbon Resources Development Pvt. Ltd., was certified for ISO 9001. With an initial team of 10 employees operating from 4 branches, we were driven by a vision to deliver high-quality certification and inspection services.

Expansion and Growth

Adding New Schemes

Our pursuit of excellence continued with additional accreditations from JAS-ANZ for various standards: EMS ISO 14001 on June 10, 2002, OHS ISO 18001 on December 23, 2004, FSMS ISO 22000 in 2006, ISMS ISO 27001 on May 11, 2009, and SRMS ISO 30000 on October 5, 2012.

On August 16, 2004, we received accreditation from NABCB for QMS ISO 9001 and EMS 14001, as well as for IB (Inspection Body) ISO 17020. In April 2017, we achieved accreditation for MDQMS ISO 13485.

Additionally, on May 14, 2009, we were accredited for HACCP by DAC, now known as EIAC.

We also received approval from PNGRB as a TPI agency on April 4, 2011, and for the certification of ERDMP on October 12, 2011.

New Accreditations and Approvals

In our quest for excellence, we obtained approval from FSSAI for Third-Party Audits for FBOs on 28th August, 2018 and received recognition from CDSCO as a notified body for MDR-2017 audits on 22nd May, 2020.

Milestones of Achievement

Client Base Expansion

By 2024, we had certified over 12,000 clients for ISO certification and numerous clients for third-party inspections. Our workforce expanded to 750 employees across 27 branches, managing numerous third-party inspection and certification activities.

Diversification and Vertical Expansion

Ensuring Integrity and Value: The Role of Trustworthiness, Impartiality, and Ethics in Certification and Inspection Services

Dy. General Manager - Marketing

Mr. Ganesh Deherkar

Introduction

In today's competitive and regulatory environment, businesses and organizations rely heavily on certification and inspection services to validate the quality and compliance of their products, processes, and systems. Trustworthiness, impartiality, and strong ethical practices are critical to the credibility and effectiveness of these services.

This article explores the importance of these principles and how they contribute to value addition in certification and inspection processes.

The Importance of Trustworthiness

Trustworthiness is the cornerstone of any effective certification and inspection service. Stakeholders, including clients, regulators, and consumers, must have confidence that the services are performed with integrity and accuracy. Trust is built through consistent, transparent processes and a track record of reliability.

1. Building Confidence: Trustworthiness ensures that certification and inspection outcomes are accepted and respected across various sectors. It builds confidence among stakeholders that the results are accurate and reliable.

2. Case Studies: Highlight examples of organizations that have benefitted from reliable certification and inspection services. Discuss how these services helped them gain market trust and enhance their reputation.

Impartiality in Certification and Inspection

Impartiality refers to the unbiased nature of the services provided. It ensures that evaluations are made without favoritism or conflict of interest.

1. Maintaining Objectivity: Certification bodies must avoid any influence that could skew their judgment. This includes avoiding any financial or personal interests that could affect the impartiality of their assessments.

2. Regulatory Standards: Discuss the standards and guidelines that certification bodies must follow to ensure impartiality, such as those set by ISO/IEC 17021 or similar frameworks.

Ethical Practices

Ethics play a crucial role in maintaining the integrity of certification and inspection services. Adhering to high ethical standards ensures that the services are conducted with honesty, fairness, and respect.

1. Code of Conduct: Certification and inspection bodies typically follow a code of conduct that outlines ethical responsibilities. This includes transparency in reporting, confidentiality, and the fair treatment of all parties involved.

2. Ethical Dilemmas: Address common ethical challenges faced by certification bodies and how they navigate these issues to uphold their credibility.

Value Addition through Certification and Inspection

Certification and inspection services offer significant value beyond mere compliance. They contribute to the overall quality and efficiency of organizations.

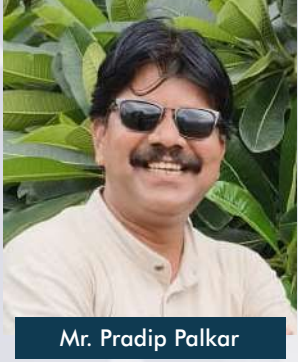

1. Enhanced Credibility: Certification provides a formal recognition of quality and adherence to standards, enhancing the credibility of organizations in the marketplace.

2. Continuous Improvement: Inspection services often highlight areas for improvement, helping organizations to continuously refine their processes and systems.

3. Market Differentiation: Accredited certifications can differentiate organizations from their competitors, opening up new market opportunities and fostering customer trust.

Conclusion

Trustworthiness, impartiality, and ethics are integral to the efficacy of certification and inspection services. By adhering to these principles, organizations not only ensure compliance but also enhance their overall value proposition. As businesses navigate an increasingly complex landscape, maintaining high standards in certification and inspection services is essential for sustaining credibility and driving continuous improvement.

Asst. Manager System Documentation – Certification

Ms. Sheetal Niwalkar

A silver jubilee is a celebration of a 25-year milestone. It is a commemoration of the hard work, dedication, and perseverance that have brought ICS to where it is today.

When ICS started in 1999 we were a few but now we are many, not only in numbers but also in talents and creativity. I was one amongst the few along with some of ICS stalwarts Ms. Aanchal Chabbria and Mr. Dilip Negi when ICS started its Operations in Juhu Office.

I was also one of the few who was given the opportunity to go overseas and start the first ICS overseas office in Dubai in the year 2002 to cater to the middle eastern and GCC market to provide certification, inspection and training services. Under the guidance and with a strong support and commitment from Management to quality and innovative service delivery, ICS Dubai made a humble start by obtaining necessary registrations and licences to operate in Dubai. ICS commenced its business activities by obtaining Accreditation from EIAC for HACCP certification and JAS-ANZ for QMS/EMS/FSMS/IMS standards.

Like any other start ups, initially ICS faced challenges and teething problems but eventually gained momentum and acquired its share of certification business in the UAE market. Its been over 20 years now and ICS Dubai has created a niche for itself and an emerging name in the UAE market. ICS has provided certification services to over 300 companies in various sectors like Hospitality, Food and Beverage Industry, Service Industry, Manufacturing and Oil and Gas Industry.

My heartfelt Congratulations to ICS for completing incredible 25 years and i am very grateful and thankful for making me a part of ICS family.
