

# INTERNATIONAL CERTIFICATION SERVICES VENDOR INSPECTION

## THIRD-PARTY INSPECTION

### What is Shop Inspection?

Shop Inspection involves inspecting item at their place of manufacture before delivery. This is the most convenient and cost-effective way to determine whether a Items, service, process, piece of equipment or installation complies with expressed needs, customer expectations, applicable standards or other specific requirements. Shop inspection can include design review, review of material certificates, visual inspection, various mechanical Destructive and Non Destructive Testing (NDT), supervision of performance of mechanical ,Electrical and Instrumentation items, also functions tests and Factory Acceptance Test.

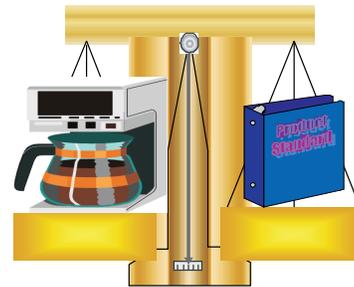

### What are the key benefits?

- Avoid risk linked to quality and safety problems with supplies;
- The reassurance of an independent assessment;
- Confidence to use supplied items thanks to detailed reports and certificates;
- Cost effective way to verify Quality assurance/Quality control organization of suppliers;
- Highly competent personnel with relevant experience and qualifications at your service.

### What is Inspection and certification?

- Evaluation/ Testing/ Determination
- Acceptance criteria as per Specification, codes and Standard,
- As per ASME/ANSI/ASTM/API/ASNT/IS/EN/BS/DNV/AWS
- Validation (Conformity Assessment)
- Monitoring or Auditing
- Follow-up Inspections to insure a consistency OF QUALITY.
- Marking/Labeling
- Identification of inspected products.
